Contents

1	Manufacturing Guide	1
1.1	Components List	1
1.2	Ordering PCBs	1
1.3	Fabricating Supporting Structures	1
1.3.1	Pressure Configuration Clamp Design	1
1.3.2	Infusion Pump Clamp Design	1

1 Manufacturing Guide

This section will provide the required equipment lists, ordering requirements, fabrication, and soldering information to manufacture the full Urodynamics system.

1.1 Components List

here

1.2 Ordering PCBs

order

1.3 Fabricating Supporting Structures

The sections below provide drawings with labelled dimensions and tables with the corresponding measurements. Measure the procured components and apply the dimensions to the drawings to identify suitable supporting structures for your components.

1.3.1 Pressure Configuration Clamp Design

1.3.2 Infusion Pump Clamp Design
